

ALUMINUM PRIVATE MAILBOXES

2900 SERIES Aluminum Private Mailboxes. Rack Ladder Installation – Rear Loading

Security 2900 Series mailboxes were designed and engineered by the United States Postal Service for use in Postal Centers. The all aluminum construction features 1/4" extruded aluminum doors with a 5 pin cam lock (1000) changes and 2 keys. Modules are available in choice of 1, 2, 4, 8 or 12 compartments per module and finished in silver powder coat with black trim. All modules are identical in size, 23 7/8"W x 12 1/8"H x 15 1/2"D and are designed to be installed in a rack ladder system. Each column of rack ladders will hold 5 mailbox modules. Two rack ladders are required for the first column of mailboxes and one ladder is needed for each additional column. Optional vertical engraved identification.

1 Door
